Full-stack developer with engineering background and international experience. Eager to start new challenges, self-motivated, and goal oriented, earned my certificate in Full Stack Development from the Georgia Institute of Technology. Proficient in web development in an Agile team environment. I'm looking forward to developing more skills.

Technical Skills

Languages: Javascript.
Web Technologies: NodeJS, React, Express, Handlebars, REST, MERN, GraphQL, CSS, Bootstrap, Tailwind.
Databases: MySQL, Sequelize, MongoDB, Mongoose.

Projects

SportsConnect | https://github.com/JaminHLO/jaan-event-manager |
https://sports-connect-e11a3bbe276b.herokuapp.com
  - MERN application that allows users to build community through sports. Users can create and join clubs and events in their area of interest or close to their location.
  - Technologies: MongoDB, Express, React, Nodejs, GraphQL, JWT, Bycript, Google Maps API, Stripe Library, and Tailwind.
  - My role: React and GraphQL functionality. MongoDB set up.

HomeHub | github.com/Anabel-Espinoza/HomeHub | home-hub-management.herokuapp.com
  - Full stack application that provides landlords/tenants with a complete solution to manage properties details, maintenance tickets, and communication.
  - Technologies: NodeJS, Express, Sequelize, Bycript, Express-Handlebars, Express-Session, Bulma.
  - My role: Back-end and Front-End logic. Set up routes, handlebars, and models.

NightOwl | github.com/victoriamcn/NightOwl | victoriamcn.github.io/NightOwl/
  - Web application that provides the user with the upcoming events in their city, as well as nearby restaurant recommendations.
  - Technologies: HTML, CSS, Bootstrap, Javascript.
  - My role: Researching client-side APIs, JS coding, contributed to CSS styling.

Experience

Stay-at-home parent. Cumming, GA.   2016 - Present

Sales Engineer, Schlumberger. Villahermosa, Mexico.   2014 - 2016
  - Sales representative for PEMEX and other oilfield companies in MX South.
  - Created and presented logging job proposals to clients.
  - Prepared technical part of new logging contracts.

- Found opportunities to introduce new technologies into development and exploration wells, increasing the location revenue to up to 1.9 MUSD/month.
- Added two new clients to the client portfolio, helping the location to increase market share.

Instructor, Schlumberger. Abu Dhabi, UAE.   2011 - 2013
- Prepared recently graduated engineers from all over the world to work as wireline logging engineers.
- In charge of delivering intense training program to entry-level engineers.
- Employee retention levels were always accomplished.

General Field Engineer, Schlumberger. Maturin, Venezuela.   2009 - 2011
- Worked in the field performing a variety of logging jobs for PDVSA and other clients in Venezuela.
- Performed duties of Engineer in Charge for my location.
- Trained junior engineers to help them achieve promotions.
- Leader of the team that prepares the location for internal audits. Received the best score in the area after implementing quality and safety procedures.

Field Engineer, Schlumberger. Poza Rica and Reynosa, Mexico.   2006 - 2009
- Worked in the field performing a variety of logging jobs for PEMEX and SLB.
- Loss Prevention Team Leader, a team that tracks, motivates, and rewards employees participation in health and safety related issues. (2007-2008)
- Performed high profile jobs in Mexico North area.
- Traveled to Peru to perform a high profile operation.
